Phoenix, Arizona 85007

August 19, 2016

**Subject: Docket No. W-02181A-15-0216**

**Decision No. 75554**

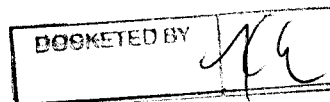

Enclosed please find the original and 13 copies of this filing for Pine Valley Water Company to show we have complied with lines 17 through 20 on page 17 of the above decision regarding providing well security in the form of a lockable well enclosure. This is to be filed with docket control in compliance of rate increase. If you have any questions please feel free to contact me, thank you.

Sincerely,

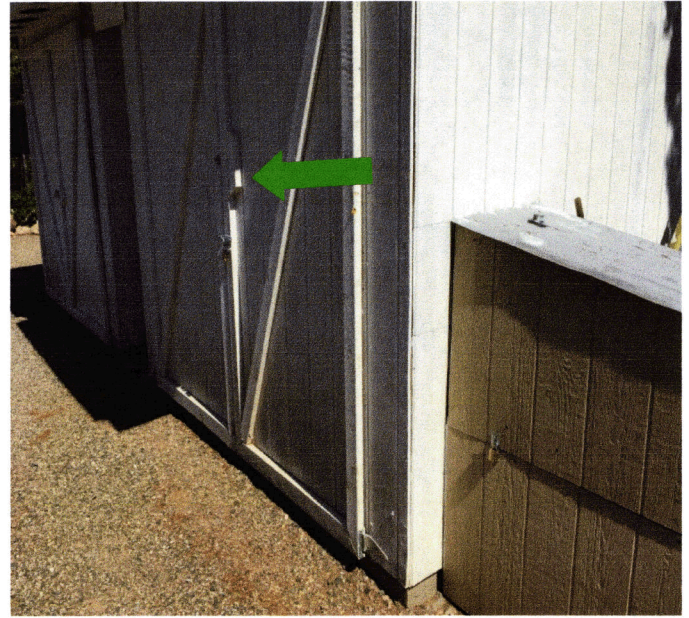

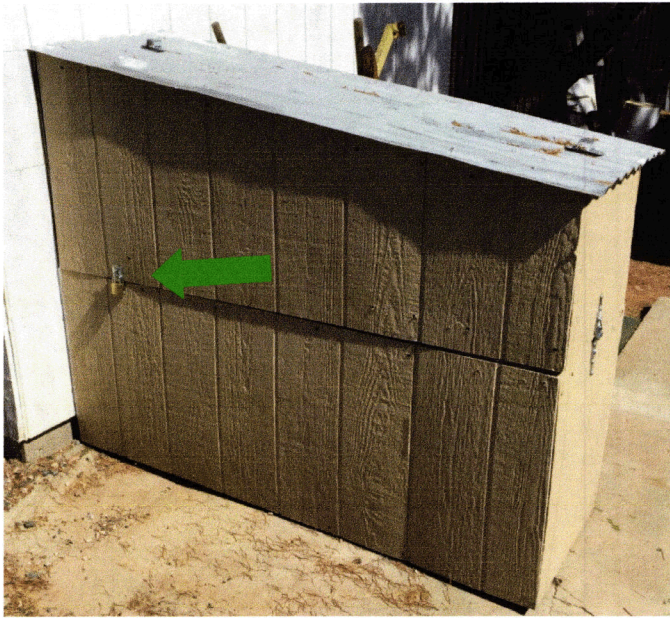

Lisa Wischmeier  
Secretary, Pine Valley Water Company

DOCKET CONTROL  
2016 AUG 25 A 10:32

**Docket No. W-02181A-15-0216    Decision No. 75554**

**Subject: Compliance with lines 17 through 20 of page 17 providing well security with a locking well enclosure**

The above photos show that the well enclosure and the building containing the arsenic treatment have been secured and locked. Photo 1 is of the well enclosure the bottom of which is attached to the white building to the left as well as the concrete on which it sits. The green arrow in photo 1 is to highlight the lock on the enclosure to secure it. Photo 2 is a picture of the building that contains the arsenic treatment and to which the well enclosure is attached. While the docket/decision did not specifically mention this building to be locked since it is attached to the well enclosure and contains the arsenic treatment system we felt that it was prudent to lock and secure this structure as well. The green arrow in photo 2 is to highlight the lock on the building to secure it.
